

**HUILUA FISHPOND**

Kahana Bay, 13 miles north of Kaneohe on Hawaii Route 83, Oahu

Huilua Fishpond, operational well into the 20th century, is one of the few surviving fishponds of an estimated 97 that once existed along the coast of Oahu. Fishponds, constructed for hatching and keeping fish, were unique achievements of the ancient Hawaiians in their extensive aquacultural practice.
